

Kindermann Bundles

NEXT LEVEL - FOR YOUR MEETINGS

Kindermann's all-in-one solutions for smart conferencing & collaboration.

Contents

Kindermann Bundles

Why...!

Small meeting rooms / Huddle spaces

Produce lifelike and interactive video conferences in small spaces with the Huddle⁶⁵ all-in-one solutions - leading products for hybrid meetings and digital collaboration.

 small  15 m²  6

Meeting rooms / Medium-sized rooms

The Meet⁷⁵ all-in-one solutions are perfect for medium-sized rooms and provide everything needed for video conferencing and collaboration, including hybrid meetings, digital collaboration, and interactive teamwork.

 medium  30 m²  18

Board rooms / large meeting rooms

Interact, present, share, and collaborate seamlessly with ProPresent⁸⁶ bundles. These bundles make it easy for every user, and are also perfect for digital teaching and learning in larger rooms.

 large  50 m²  30

Why...

Kindermann!

Why...!

ALL-IN-ONE

The bundles include all necessary products for the application, ranging from displays and mounts to conference, presentation, and collaboration systems and tools, as well as power cables.

UNIQUE

- > All components are designed by Kindermann.
- > The systems are fully compatible with all components and are tested before dispatch.
- > Service & support from Kindermann - simple, fast and friendly.

SCALABLE

We provide cost-effective and extensively tested solutions for conferencing, presentations, and collaboration that are tailored to your specific environment, whether it be room-specific or application-specific.

EASY

Our solutions are designed to be user-friendly and require minimal maintenance. We guarantee quick installation and simple set-up, with regular updates to ensure optimal performance.

Kindermann Touchdisplays

Our touchdisplays are designed to be user-friendly and intuitive, requiring no training or cables. We have eliminated any unnecessary gadgets, ifs and buts.

Kindermann display mounts

Secure and sustainable solutions for a fast, smooth and seamless height adjustment of interactive displays with a size of up to 86".

- > **DisplayLift:** Electrical height adjustable display mount for floor/wall installation or as mobile cart.
- > **DisplayShift²:** Manually height-adjustable wall mount for touchdisplays.
- > **WM4564:** Fixed and universal wall mount.

Klick&Show

Kindermann Klick&Show meets all the requirements of modern meeting culture. It is easy to use and compatible with all common devices and operating systems. It is uniquely universal and can be used via transmitter, software client, app, or natively via AirPlay.

Data transmission

Routing data to the correct devices can be challenging, but Kindermann provides signal management solutions with the **CablePort frame slide** and the **Multiswitch 21 HDBT3**.

Online meetings

The Kindermann **KVB 120** all-in-one 4K video soundbar enables small and medium-sized meeting rooms and huddle spaces to become online meeting-ready quickly.

Why Kindermann!

> **Kindermann offers state-of-the-art products...**

With the latest technology, high quality, and a unique price-to-value ratio.

> **Kindermann has many years of expertise at the highest level...**

in audio, video, acoustics and system design!

> **Kindermann is a “solution provider”...**

Our solutions are more than just products - they are complete and tested solutions that come from a single source. We have extensively tested all components to ensure they fit together perfectly.

> **We think “User Experience”...**

Our systems aim to provide users with an optimal experience. We offer complete solutions that are easy to install, intuitive to use, and provide a great user experience!
